a typical toller of good size, he is well balanced for his age, nice head, strong neck, very good body, still young and needs more time to develop in body, balanced angulation, typical tail carriage, white markings as they should be, he moves quite well but a bit lazy, and not concentrating on his job

still a puppy, but well developed for age, good size, nice head, ear carriage could be slightly better, good neck and body, at the moment she is slightly highly behind but hopefully she would grow into it, very good bone, moving freely, good temperament

Bewertung: vielversprechend

good type, two years old, good size, the head could be a bit more balanced, strong neck, good body for her age, angulation could be more balanced, i would like a bit more bone, very good coat quality but not in full coat, happy temperament, moves quite well but a bit too busy, not concentrating well,
